This image shows step 35 of a LEGO Technic assembly. The main structure is a long, narrow chassis built from black Technic beams. On the left side, a grey motor is connected to a series of gears. A red arrow indicates the direction of rotation for one of these gears. The chassis is supported by several grey wheels. Various black and grey Technic components, including pins and connectors, are used to assemble the mechanism. The background is a light blue gradient with faint, stylized text and graphics.
