This diagram shows the rear suspension assembly being attached to the chassis. The assembly, which includes a grey motor, a red frame, and a red suspension arm, is being positioned on the right side of the chassis. The chassis is a large grey plate with a central black track. The suspension arm is being connected to the chassis using a red pin. The motor is connected to the chassis using a red pin. The diagram shows the assembly being attached to the chassis, with the motor and frame being positioned on the right side of the chassis.
