This diagram shows the assembly of the top beam. A long black 1x15 beam is being positioned above the main structure. Red arrows indicate that it should be placed on top of the existing black beams, specifically aligning with the red 1x2 plate and the grey 1x2 plate on the right side. The base structure includes a black 1x15 beam, a black 1x5 plate, a black 1x2 plate, a red 1x2 plate, and a grey 1x2 plate.

11

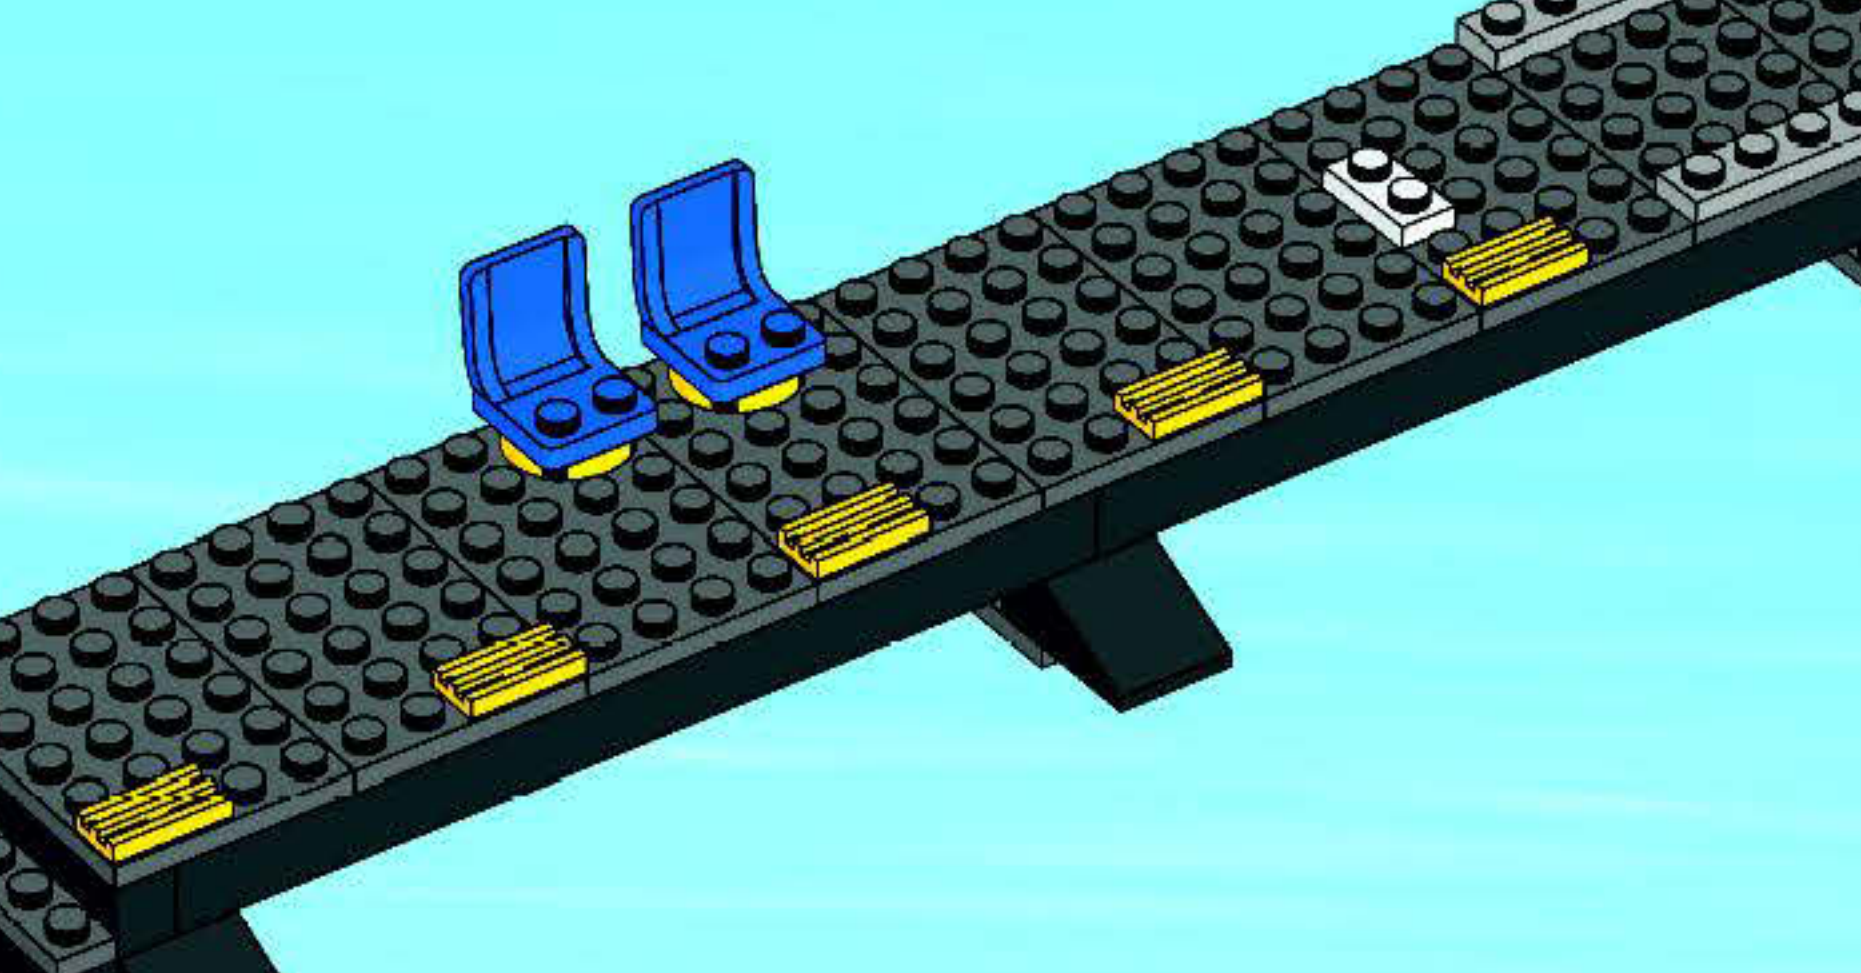

This image shows step 11 of a LEGO Technic assembly. The main structure is a long, narrow platform made of black Technic beams and plates. It has a stepped profile with a higher section on the left and a lower section on the right. Two black Technic feet are attached to the bottom of the platform, one at each end. On the top surface of the lower section, there is a small white 1x2 Technic plate and a yellow 1x2 Technic plate. The background is a solid light blue.

12

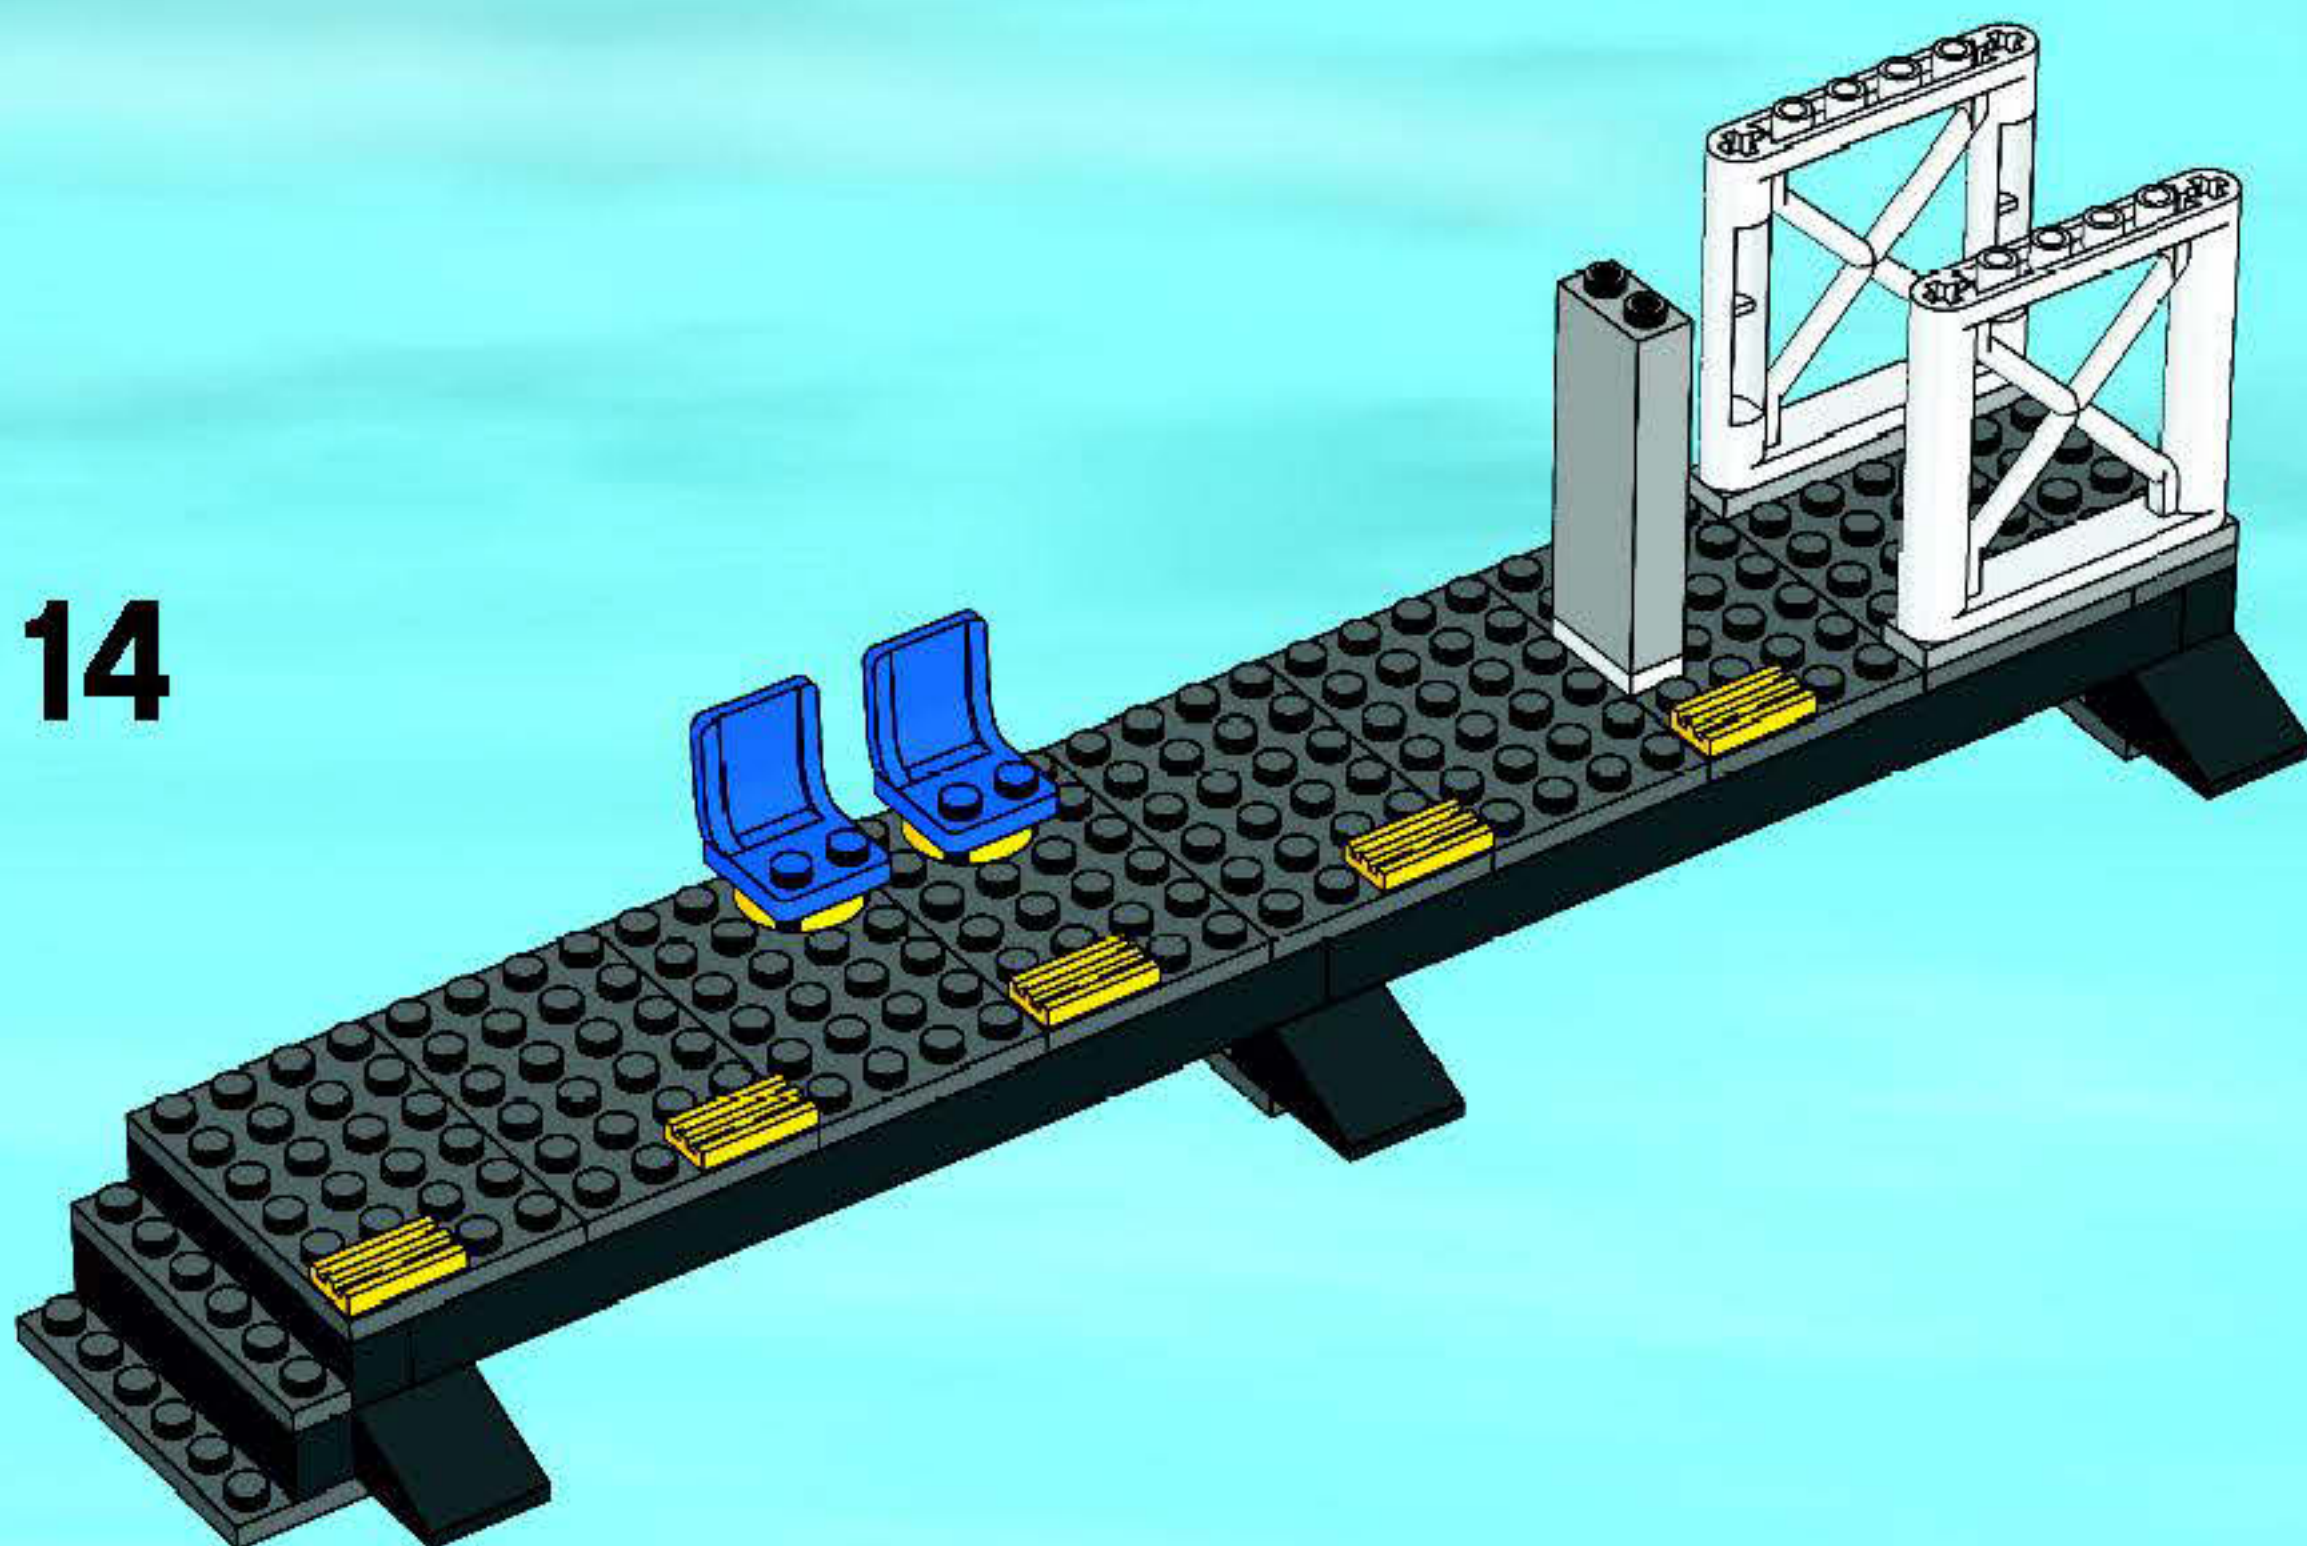

This image shows step 12 of a LEGO Technic assembly. A long black Technic beam is being constructed. The beam has several yellow 1x3 Technic plates attached to its top surface. Two yellow 1x2 Technic pins are also attached. A white 1x2 Technic plate is attached to the top surface near the right end. The beam is supported by two black Technic stands. The background is a solid light blue color.

13

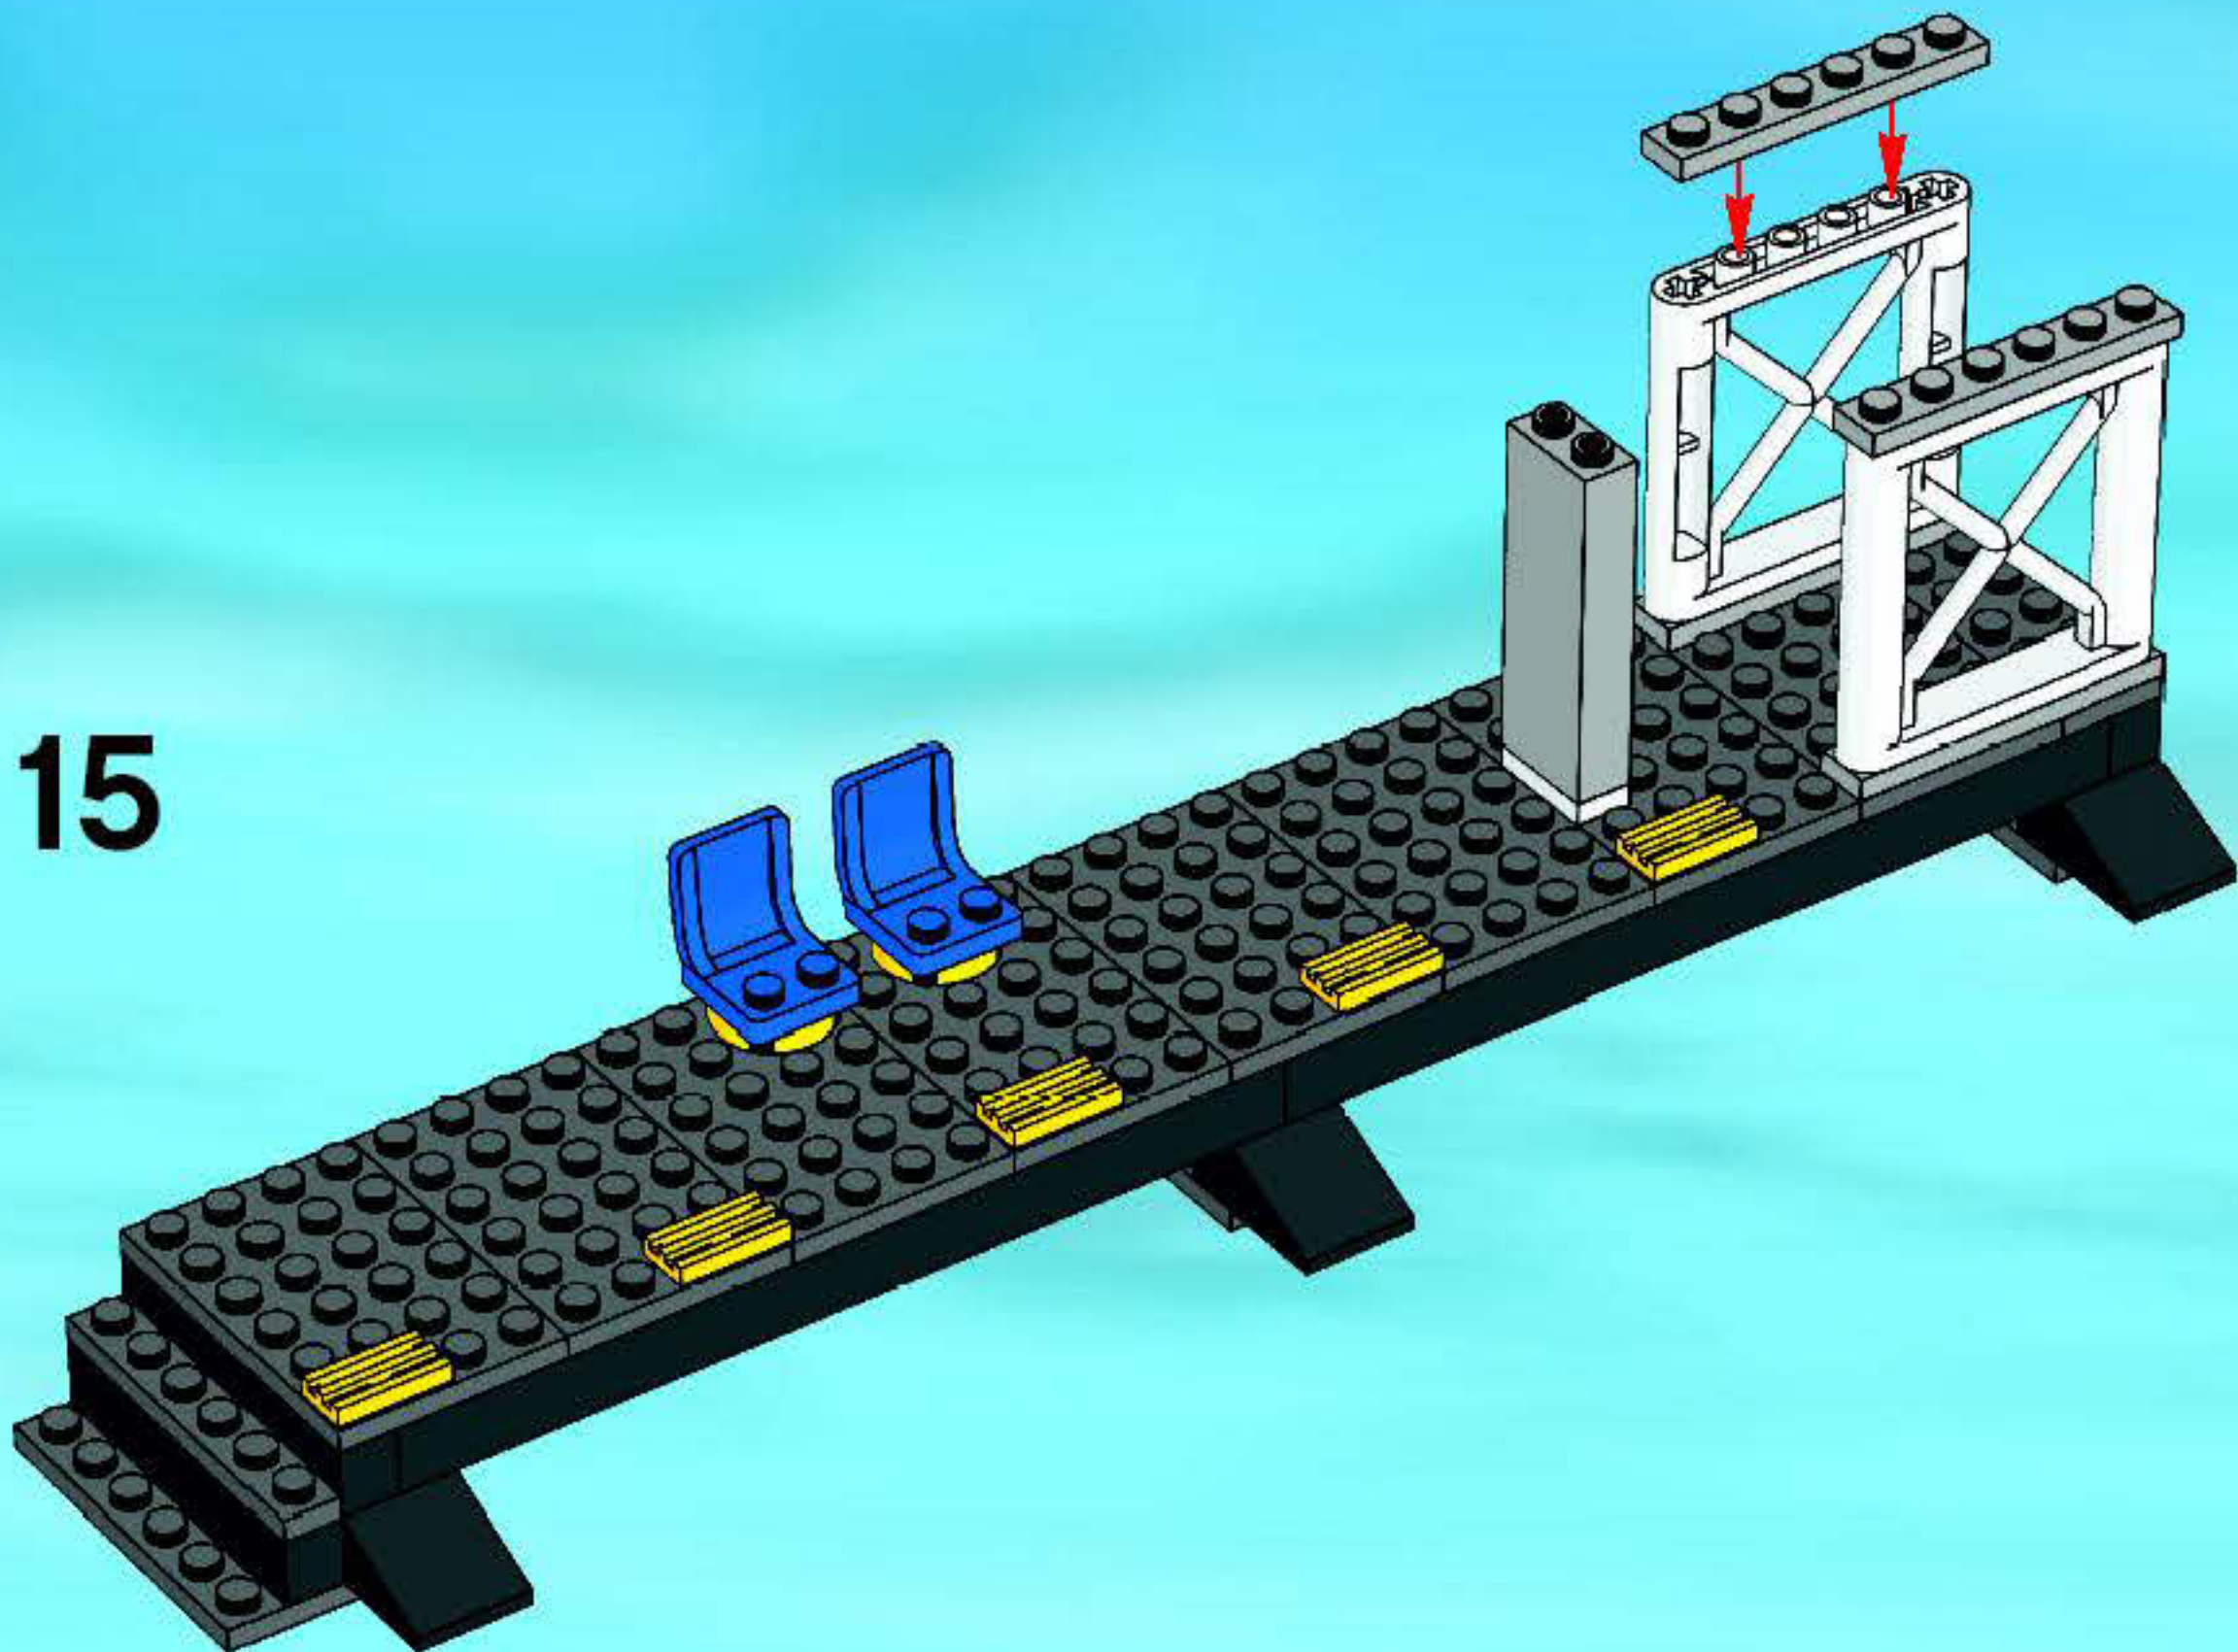

This diagram shows the assembly of a long, narrow LEGO Technic structure. The main body is a long black Technic beam with a grid of holes. Two blue Technic seats are attached to the top of the beam. Four yellow Technic connectors are placed along the top of the beam. The structure is supported by two black Technic legs at the ends. A white Technic connector is placed on the top of the beam near the right end. The background is a solid light blue color.
